

We are licensed acupuncturists. We do not bill insurance directly, but If your insurance company allows for reimbursement, we can provide you a detailed receipt (SuperBill) that includes our NPI number , your diagnosis code, and procedure code to help you submit to your insurance company. Payment is due in full at the time of service. We accept cash, checks, and credit cards.

Acupuncture is considered a qualifying medical expense under Flexible Spending Account(FSA) and Health Saving Account (HAS) plans.

Thanks for your understanding !
